
The Coalition Executive Committee (EC) Committee Members Standing for Election, October 2024

The Executive Committee (EC) is elected by member organisations and meets approximately six times a year. Its role is to help members understand, analyse and respond to policy and political developments in Scotland. The EC plans meetings and co-ordinates all activities.

The EC is elected from carers and workers who have volunteered their time to assist in co-ordinating Coalition activities. We try to maintain a balance of carers and workers, and a geographical spread of committee members.
